“ I just want to express my deepest sympathies for this family. Sissy was an Angel. She always gave us a good laugh eating spaghetti at the thanksgiving table. What she really did during the 16 years I knew her she always put her family first. Giving them things, & capturing moments on camera, and printing them out for us. I would give anything to have one more apple exercise competition with you just to see the smack-talking!

“ To all the nurses on 5 East at U of L. I would like to say thank you and tell everyone how great you were to Sissy. Every nurse talk to her like she was their family member. The loving way they carefully changed her bandages and tried to be so careful not to hurt her. I know some would say “it’s their job” but not me they went way beyond their jobs They made sure I understood what was going on and if I didn’t they would brake it down for me. They never acted they they minded my late night calls or me being a helicopter sister. When it got were we stayed all the time they kept checking in with us to see if we needed anything. They will always have a special place in my heart.

I would also like to think two of the doctors and there were a bunch of them. But thanks to the two that would look me in the eye and told me the straight truth. You are special in my book.
