“ this is his daughter autumn me and my dad was always over the road 24/7 and i loved it and there was this one time when we were in wisconsin and he had me try on these armour hats and they were so much bigger than my head and body i almost fell over right in the middle of the store. And then we were in new york together and we were in a mcdonalds and he would chop me in my throat everywhere we were but we were in the mcdonalds and there was this cute boy behind us and i told my dad he was cute so he chopped me in my throat and usually i cough but i didn't cough all because the boy behind us was cute and i didnt want him to laugh at me and i didn't want to get embarrassed in front of him so i saved the cough till we got in the truck i miss my dad so much we did so many things together.
