“ *My fondest memories are of growing up on the farm that Mike and Diane owned in Webster, Kentucky. They gave me my first pony "Little Joe." Every year, they held a company picnic on that farm. They brought in horses from Houchens Brothers Stables, they provided food and there was always a hayride down Old Lodiburg Road where Mike drove the tractor VERY SLOWLY. Diane, I loved you, Mike, and Sue...those were some of the best days of my life.*

“ *I am saddened to hear of the loss of Diane Hall and of her long battle with cancer. I was an employee of Mike and Diane in 1970 at Mike Hall Auto Parts and knew Diane's parents Forest and Pat. They were wonderful people. Diane's brother, Terry was my great friend in high school and her sister, Debbie was a real angel. Mike and Diane were truly wonderful in every way and the entire DeWees family were very special to me. I pray the Lord's comfort during this time of sorrow. God bless.*
