“ Chris took the time to explain the inner working of the police department and make me feel great about my employment choice at that agency. He was very motivating, friendly, and made me feel apart of my new family. He was a man that lead from the front and took care of his officers. He had each individual set daily goals at work and rewarded you for achievements. He will be missed by all who knew him.

“ Our condolences to Chris's family, friends and co-workers.

*He was a great man and awesome boss, but an even better friend. No matter how long it had been since you last talked to him, he made it seem like it was yesterday.*

*Rest easy Mac.*

“ *I don't think a day went by over the last few years that we weren't laughing. I am going to miss his quick wit and sarcasm, his sound advice, big smile, and the fun he brought to each and everyday. His passing leaves behind a huge void. I will miss him terribly, and count it a privilege to have called him a friend. One of his favorites, The Beatles, say it best...*

*But of all these friends and lovers  
There is no one compares with you  
And these memories lose their meaning  
When I think of love as something new  
Though I know I'll never lose affection  
For people and things that went before  
I know I'll often stop and think about them  
In my life, I'll love you more*

“ *My first memory of Chris was when he walked into my office at the City of Jeffersontown and was filling out papers as a new hire for the Jeffersontown Police Dept. I thought he looked so young to be working there. He was a fine officer and well respected. My prayers are with the family. God be with you in this time of grief.*
