“ David loved sci-fi movies and books. The weekend before the 4th of July, he bought the movie Dune 2. We rewatched Dune 1 on the Saturday and spent Sunday watch Dune part 2. We'd been waiting for months for it to become available and had such a fun time that weekend with our popcorn and a movie.

David was my brother-in-law and technology adviser, and Mexican food compadre and grief counselor when I lost my son and life partner. He said words and a eulogy over my Mother's grave when she passed, he took me to my sister Carol's funeral when she passed with his technology skills. David will be sorely missed. He is now with God.
