“ *I will miss Debra and our little talks. I take the stuffed U of L pillow that she gave me on every vacation. She was a very kind, loving and sweet person. I know she loved her husband, children and grandchildren because she always talked about them. Hold on to the great memories that you have of her for they will take you through this time as you say good-bye in this life to her. I worked with her for many years and she was loved by the people that work here at the Census Bureau.*
