“ Still thinking about you Mom, every day. I wish we had just a little more time together. I mostly think about lying next to you and holding your hand the two days before your death. I hope I comforted you. It was so hard to watch you slowly go away from us. I know you could still hear us. Thank you for giving me life. I will always love you. Bridgett

My thoughts are with my friend Stephanie & her family at this time. I hope Mrs. Powers is free of pain and at peace now. I also hope God will provide you with the strength to carry on. Your mother will always be with you in other ways.

“ My mother was a beautiful lady and an extremely hard worker and worked until her death to ensure all real estate was paid so that her children could have it. She worked very hard while we were children as an LPN, first, and then, as an RN. She always wanted us to have the best: swimming lessons, tennis lessons, piano lessons, and supported us through many other activities and life experiences. A Catholic Education and Catholicism were very important to her. She made sure we always went to church every Sunday. Family was also important to her. While growing up, we spent many, many Sundays visiting Grandma and Grandpa Thompson. We heard numerous stories often over the years about various relatives on both sides of our family. She wanted us to know who we were and whose shoulders we stand. Later, both her and my dad spent a great deal of time with my son. As a single mom, she often would have Brett visit her when I needed to work. I will miss seeing her when I would pick Brett up and communicating with her about my life and events. I was able to be with her at her last breath. I will miss you very much and wish you were still here but now you are with God. Until we meet again may the Lord Shine with you. I look forward to seeing you again and holding your hand. Love you always, Bridgett
