“ I graduated high school with Francene in 1984. Although we were not close friends, I knew then that she had the drive and determination to become very successful in life. Over the years and traveling often as a flight attendant, once again I came face to face with Francene watching the evening news in Baltimore, I believe, in the mid 90's and later on in Louisville as well. It felt good to see her face and know that she was exactly what I knew she would become...a true success in life. I am very saddened by the news of her death and pray that her friends and family find peace within their hearts to have known such a wonderful woman.
