“ As everyone knows, COVID-19 caused a lot of things to change including the class of 2020 graduation. I am a graduate of 2020 so I had the weird graduation ceremony, but she made sure to be there to watch her granddaughter walk across the stage. Afterwards we went out to eat to my favorite restaurant and we took a photo together outside, it's my wallpaper on my phone. She was a fantastic grandmother, she always made sure we were taken care of whether it meant food or money or even clothes, she wanted to know if her grandbabies were okay. I'm gonna miss her so much, so words can capture the feelings I have but I take comfort in knowing that she most definitely is in heaven. I love and miss you beyond words, grandmama. Until we meet again.
