DE

“*My sincere condolences to Frank's family. I grew up with Frank, went to school with him and played sports with him. He was a close childhood friend. I moved away from Louisville after high school, but will always remember the early years; and Frank was a large part of them. He was full of life. I knew he had been sick in recent years, but was very sad to hear of his passing. Again, I am sorry for your loss.*
