“ *I met Hayden freshmen year. His energy, his laugh, the way he never let anything bad or negative effect him or his emotion. From then on I knew he was gonna be around somehow forever.*

He always protected those who needed protecting. He took up for those who couldn't find the courage to say anything back. Hayden has made such an impact on me and my life.

I am not quite sure what I am gonna do without him around. I know he would want me to stop crying and being a big baby (cause I cry about everything.)

Thank you Hayden. For everything you've ever done for me. Your flame will only grow stronger from here.

-Cherishing every moment from here on out. No matter what Hayden!

“ The first night I met Hayden, him and Dustin were telling me they were twins and switching their names all night long. I could tell from then on that I wanted to have someone so funny and energetic in my life. From that night I got really close with him and he became one of the biggest lights in my life. His energy and caring soul radiated everywhere he went. To the big bear hugs, random slow dances, and him picking me up over his shoulder and play wrestling with me when I was sad, I'll miss all of it and more.

“ From the moment I met you, I could tell why you and Nick were so close. Every time I ever talked to you, you were always a ray of sunshine. You treated me just like you treated Nick and you always wanted to hear how we were doing. And you were there for not only him but me too. You left a huge whole in both of our lives and I will always appreciate all the memories and support you gave us throughout the years.

“ We made many memories. But we had many many more to make man. We were turning 21 together, we were growing up together, we were boys and became men together. I regret every day that I did not see you. I tried to see you every weekend, or hang out at least once a weekend. The busy life of adulthood was stopped in its tracks by this tragedy, and even in your passing you brought everyone together. You were a ray of sunshine, and please Hayden continue to be. Love you buddy
