“ I am very sorry for your loss. My Mother shared a room with Janice at Georgetown Manor, Wanda Glover which she died March 16, 2012. My Mother and Janice was very sick the day I went over to the nursing home on March 7, 2012. I gave Janice a soda and she vomitted it up. I try to help her in alot of ways. My Mom and her would get their hair fixed on he same days. It was cute. Remember my family and I will keep your family in my prayers.
