“ *Mr. Page was such a kind and caring person, and even cracked a smile or two when this young eighth grader would ask him to "...explain that to me just one more time...". I met and talked to him at the Golden Bear dinner last year (2023), and when I mentioned that I never could fully appreciate math until I was in his class in the 8th grade.... He smiled and simply said, "you weren't the first one..." Thank you Mr Page and all of yourself that you shared with the rest of us. You will always be remembered and loved by many. God bless you Sir.*

“ *Joe was my classmate at RHS, class of 1959. At our reunions he would pray and release balloons for our class that had passed on. Tomorrow at noon I will release black and gold balloons from the stadium and send them aloft with a prayer.*

“ I had Mr. Page for freshman Algebra at Butler. I was always horrible at math, but he always took the extra time and was so very patient with me. He made sure I understood what I needed. Condolences to the family..
