“ Laura was my husband's nurse who prepped him for open heart surgery twice at Kosiar's. He was one of the few adults they treated there. Laura was so upbeat and loving to us, I would be remiss in not letting you know how wonderful she was to us. On the night my husband died, she came up to see me and encourage me. She was truly God's angel on earth and now she is with Jesus. May God bless your family and I pray that you will have peace and comfort at this sad time.

“ To the entire extended Cutsinger Family, I'm so very sorry for your loss. There really aren't any words that are adequate enough at a time like this. To Doug Comstock, it was less than a month ago when we were catching up with your life, Elizabeth's and the rest of your family's. Continue to do as well as you both have; that will be a good way to honor your mom. Elizabeth, my heart breaks for you as well. I know how you feel. Emma, I never had the pleasure of meeting you. You have so many family members whom love you dearly. Call them, talk to them whenever you need.  
Very sincerely, Sharon Ballard
