“ Les & family, the Department of Emergency Medicine at UofL extends our gratitude for all the Room 9's you helped resuscitate over the decades. There are scores of patients who have no clue that you helped prove the difference for them. Rest assured your baritone will re-resonate for them. You were the "Man at the start of the siren" that we emergency physicians would hope to see on our scene.

“ Les, our golf outings here and Myrtle Beach will never be the same without you.
I will never forget what you did for me when we made the run on my sister when she passed away.

*You are a true friend and a hero to all emergency responders.
The Emergency Responders Burn Foundation has lost a great supporter and a true friend.*

*Our prayers go out for you and your family.
God speed my friend and may you rest in peace.*

“ I had the pleasure of knowing Mr. Bandy only once. I was stranded with car trouble one evening on a dark deserted road when he came up on me. He stayed with me even after AAA arrived. He said he would not leave me on the road alone not even with someone I did not know. That night he was my hero.
