

## Mary Haehl

May 21, 1947 - December 20, 2024

The time has come that we get the honor to say goodbye. In the early morning of December 20, 2024, Mary Haehl, peacefully transitioned to our Lord and savior Jesus Christ and the gates of heaven.

A country girl growing up in northwest Missouri that truly knew the definition of hard work, working her way through the banking system of southern Indiana and making an lasting mark on hundreds of families in her community.

One of the earliest members of Leadership Southern Indiana, she showed by example and by word that through hard work and relationships a community can grow closer. As she continued to age, we would often have the conversation of what life is all about, and she would quote her father by saying, "just have fun", and she took that mentality through every nursing home, assisted living facility, and brought joy and laughter to everyone she came in contact with.

Mary leaves behind her, the love of generations of family gone by and the focus of having fun and laughter in every relationship she had. She leaves behind one son, Brian (Laura) Haehl, three amazing grandchildren, Patia (Matt) Young, Emory (Andrew) Day and Benjamin (Aniya) Lewis and one great grandson Roland Young, who stole her heart; and Dan (Tyra) Seymour who currently reside in Palm Desert, CA. She was preceded in death by one brother, Tom (Sherry) Seymour.

Given the time of the season, services will be delayed until a celebration of life event can be planned, but make no mistake, she was completely aware of the love and mutual respect that she had for every individual she came in contact with.

Mary leaves behind the indelible mark of a good work ethic, focused achievement of goals, and the delight of realization knowing that a difference was made in someone's life. And while she'll be incredibly missed, we take solace in the fact that her faith sustained her and will bring joy to those that currently grieve her, knowing that in the hands of Jesus Christ she is no longer in pain and is enjoying a marathon long card playing party with those that predeceased her.

# Tribute Wall

“ *I remember when I was 12 years old and she was about 9, sitting at the old pump organ with Mary, playing songs and singing along. We had a great time together.* ”
