“ I met Michael at a joint boys choir concert in Lexington Kentucky. as 10-year olds tend to do... we immediately all gravitated to the local novelty store to find some cool pranks... I bought onion gum. Back at our choir rehearsals I walked up to this kid with horn rimmed glasses and offered a stick of gum.

If you have ever seen Michaels face after tasting or hearing something funky... you know the image that has been burned in my memory for 56 years now. Six years later I was asked by Michael to join the band America's Children, having no remembrance of our first encounter. Rehearsals in the Johnson basement with the crazy Chihuahuas started a long and wonderful musical career for me.

My life has forever been enhanced knowing Michael. Friend, laughter, and a guiding light through all times.

Aloha Michael

The Spirit of Aloha

The literal meaning of aloha is "the presence of breath" or "the breath of life." It comes from "Alo," meaning presence, front and face, and "ha," meaning breath. Aloha is a way of living and treating each other with love and respect. Its deep meaning starts by teaching ourselves to love our own beings first and afterwards to spread the love to others.

According to the old kahunas (priests), being able to live the Spirit of Aloha was a way of reaching self-perfection and realization for our own body and soul. Aloha is sending and receiving a positive energy. Aloha is living in harmony. When you live the Spirit of Aloha, you create positive feelings and thoughts, which are never gone. They exist in space, multiply and spread over to others.
