“ Aunt Mil helped me with her nursing skills in so many ways. When my mom was so sick she helped me understand what was happening with her, why the doctors were doing what they were doing and the medicines they were giving her. Of course, if you knew Aunt Mil, she had her opinion about what the doctors should be doing! She also gave me valuable advice on any health issues I was having. If I had a phone conversation with her I could always count on at least two hours! We talked about all sorts of things. But I always got a kick out of her many letters she wrote me. She would start by saying she didn't have a lot of time but wanted to get a quick note off to me. Her quick note would be 5 or 6 pages front and back! And Aunt Mil's handwriting was small! But I loved reading all of them. I will miss the chats and the letters, but I know she's having her chats now with her loved ones that left this earth before her. Love and miss you Aunt Mil.
