“ *Becky I will get so lost without your guidance and push, so I hope now and then when I don't have the answers I need maybe you could give me a hint now and then... You're so creative and smart Becky! I know you will constructively work through me to make sure what I do is twice fixed maybe three times when something don't look right in placement that I sit down or create myself and I will always appreciate that along with all the things you've taught me. You always spoke so highly, and happily of your family and so my sincerest grief goes out to them, your extended family and all your friends. My Condolences._ Lachel*

“ *To Becky's family, I am so sad for your loss. I have worked with Becky for 16 years and I am just in shock over her loss. Becky is one of the most kind hearted people I have ever known. I cannot imagine the pain you feel at her sudden passing. I pray for peace and healing for everyone who mourns her loss.*
