“ So saddened at the news of Troy's passing. Many years ago, we worked together at CD and played pool at the local watering hole when our shift was over. I still think fondly of him often.

“ Troy was a very smart person. He knew everyone's Birthday every song and who sang it every time I needed a answer of a trivia question Troy knew it. He also knew everyone's name and what they drank. It's hard to believe when Simulcast opens he wont be there. Gone but Not Forgotten.
